ALPHABETICAL LIST OF PREACHERS

The following is a list of the Preachers whose present relation to the church is recorded in this volume. . . . The figures before the names are the years in which the men were received on Trial. Where the figure is omitted there is a question about the exact year and the matter is being investigated. . . . The asterisk (*) indicates that the name will not appear in THE GENERAL MINUTES next year, the men having been removed by death, discontinuance, location, withdrawal, or expulsion. . . . **Black-face type** indicates that the Preacher is retired or supernumerary. . . . The superior figure in the page number is the column in which the name appears. . . . The editor of THE GENERAL MINUTES will appreciate information which will increase the completeness and accuracy of this record. Address him at THE METHODIST BOOK CONCERN, 150 Fifth Avenue, New York, N. Y.

1. The first step in the process of the development of a new product is the identification of a market need.
2. The second step is the development of a concept that meets the market need.
3. The third step is the development of a prototype that demonstrates the feasibility of the concept.
4. The fourth step is the development of a business plan that outlines the financial and marketing aspects of the product.
5. The fifth step is the development of a marketing strategy that identifies the target market and the methods of distribution.
6. The sixth step is the development of a production plan that outlines the manufacturing process and the required resources.
7. The seventh step is the development of a distribution plan that identifies the channels of distribution and the methods of promotion.
8. The eighth step is the development of a sales plan that outlines the sales strategy and the methods of sales.
9. The ninth step is the development of a financial plan that outlines the financial requirements and the methods of financing.
10. The tenth step is the development of a legal plan that outlines the legal requirements and the methods of legal protection.

THE NEW PRODUCT DEVELOPMENT PROCESS

The new product development process is a systematic approach to the development of a new product. It involves the identification of a market need, the development of a concept, the development of a prototype, the development of a business plan, the development of a marketing strategy, the development of a production plan, the development of a distribution plan, the development of a sales plan, the development of a financial plan, and the development of a legal plan.

Appendix: 4.121

The following table provides a summary of the new product development process. It outlines the steps involved in the process, the key activities for each step, and the expected outcomes of each step.
